What was the dream about?

Oh nothing...

Flick

...except you did kill me.

What!

Branden I would never hurt you.

Plus I told you how sensitive I can be.

Especially about things like blood.

Oh yeah! That's true!

Like, you freaking the fuck out over me cutting my finger the other day.

Branden, I value your friendship. I think you're a charming young man.

I feel the same about you.

In fact, I care about you so much I want to give you something.

What? What am I looking at??

Are you gonna give me something?
